Lyrics:

The Twelve days of Starfleet
Lyrics by Rick and Nathan Moyer

On the first day of Christmas Starfleet gave to me

An honorary Academy degree
Two dilithium Crystals
Three holodeck visits
Four hats like Guinan
Five huge Pakleds
Six Type A Phasers
Seven Replicators
Eight Rakrijinos
Nine Vulcan Mind Melds
Ten Chocolate Sundaes
Eleven Barleths Swinging
Twelve Space time Continuums

Jean Luc the Bald Head Captain

Jean luc the bald head captain
Had a very shiny head
and you if you ever heard him
"Make it so!" is what he said

All of the other captian's used to look up to him
Until Wolf 359
When they encountered the borgified him.

Then in one so daring move, Riker saved the day
Data and Worf take a shuttle craft
Get to the cube, get our captain back

Then all the crew just loved him
as they shouted out with glee
Jean luc the bald head captain
you're the best captain in the galaxy!

Klaxon Bells

Klaxon Bells, Klaxon Bells, Klaxon all the way
Oh what fun it is to be on the Enterprise today!

Klaxon Bells, Klaxon Bells Klaxon all the way
Oh what fun it is to be on the Enterprise today

Kahn may be real smart, but Kirk is really cool
Rigging tests that make the grade like the Kobayashi Maru
Condition Red Alert, the lights come flashing on
The crew their rushing around and singing this fun song

Klaxon Bells, Klaxon Bells, Klaxon all the way
Klaxon Bells, Klaxon Bells, Klaxon all the way
Oh what fun it is to go to red alert today

Have yourself a Hairy Little Creature

Have yourself a hairy little creature
let your Tribbles mate
From now on that purr will make you feel real great.

Have yourself a hairy little creature
There's no eyes nor ears
Tribbles keep on giving all throughout the years

Here they are just a ball of fur, not him or her, just it.
Klingons hate, but they are great
A must have on my Christmas list

Through the years they multiply together
as the quadrottricale allows
Hang you Tribble on the highest Star base Somehow
and have yourself a hairy little creature now

Here they are just a ball of fur, not him or her, just it.
Klingons hate, but they are great
A must have on my Christmas list

Through the years they multiply together
as the quadrottricale allows
Hang you Tribble on the highest Star base Somehow
and have yourself a hairy little creature now

We Worf you a Merry Christmas

Lyrics by Rick & Nathan Moyer

Background Klingons and fighters, Preston Ward, Andrew Moyer, Nathan Moyer, Amy Moyer and Rick Moyer

We Worf you a Merry Christmas
We Worf you a Merry Christmas
We Worf you a Merry Christmas and a Qapla' new year!

Oh bring us some Rokeg blood pie
Oh bring us some Rokeg blood pie
Oh bring us some Rokeg blood pie and a side of fresh quagh

We'll all go before the council
We'll all go before the council
We'll all go before the council and petition the chancellor.

Oh bring us the sword of Kahless
Oh bring us the sword of Kahless
Oh bring us the sword of Kahless and a Klingon dagger.

We won't go till we get vengeance
We won't go till we get vengeance
We won't go till we get vengeance and our blood oath is done

A Batleth we bring to you and your house
A Batleth with blood wine and Qapla' new year!

We Worf you a Merry Christmas
We Worf you a Merry Christmas
We Worf you a Merry Christmas and a Qapla' new year!

Away Team with Phaser

Away team with Phaser a tri-corder for Spock
The commander and Ensigns beam down to the spot
The ship in the sky, looks down where they stand
And keeps a good lock on in case they're summoned.

The pink fuchsia planet is searched by the guys
The men with the red shirts, pray that they won't die
The captain finds women that he can seduce
The rest search for monsters that are fast on the loose

I love the away team, I wish I could go
Down to the cool planet and then make it so
Stay near me doctor and give me the hypo spray
That I can go more times on a mission away

Here comes Enterprise

Here comes Enterprise, Here comes Enterprise
right through the Milky Way
Sulu and Chekov and all the crew going to warp today,
Klaxon ringing Uhura singing all is groovy and bright
McCoy is razzing and Scotty's drinkin' Cause the Enterprise flies tonight

Here comes Enterprise, Here comes Enterprise right through the Milky Way
It's got a bay full of torpedoes to fight the bad Klingons away
Hear those orders barked by Kirk Oh what an earful they are
So run your fingers across the panel and set your course to the stars.

Here comes Enterprise, Here comes Enterprise right through the Milky Way
Dilithium crystals in the chamber powering it all the way
Spock and Kirk are going boldy gaining perspective
so live your life like never before
Cause their following the Prime Directive

NCC one seven oh one, complete with the shuttle bay
The bridge and sickbay on the ship, transporters and the brig
hold on to your seats the ship's a shakin' cause this is one heck of a gig!

Here comes Enterprise, Here comes Enterprise right through the Milky Way
Sulu and Checkov and all the crew going to warp today,
Klaxon ringing Uhura singing all is groovy and bright
McCoy is razzing and Scotty's drinkin'
Cause the Enterprise flies tonight

Oh Enterprise

Oh Enterprise Oh Enterprise How lovely are your nacelles
The bluish haze of you in space
makes me blush upon my face
Oh Enterprise oh Enterprise how lovely are you nacelles.
Your saucer section is so round you make that cool warp speed sound
Oh Enterprise oh Enterprise how lovely are you nacelles.

Trek Christmas

I'm dreaming of a Trek Christmas,
just like the ones I used to know
Where the tree sports Hallmark and not the ones from Wa-lmart
and the Enterprise it hovers in the snow globe

I'm dreaming of a Trek Christmas,
with every RPG post I write
May your days be merry with Tech,
and may all your Christmases be Trek

I'm dreaming of a Trek Christmas,
as I surf to Treks in sci fi
May your days be merry and Tech
and may all your Christmases be Trek

All I want for Christmas

All I want for Christmas is to join starfleet
to join starfleet
to join Starfleet
oh to join starfleet

Gee if I could only
Join starfleet then I could wish you merry Christmas

It seems so hard to unify our planet
what with all the factions that are fighting
Gosh oh gee a peace treaty
If I could only be enlightening

Merry Trekmas (The Trekmas Song)

Kirk he orders "Open Fire"
Picard he reasons with his foes
Benjamin with his Starfleet attire
And Archer first to boldly go

Everybody knows that Janeway on her Voyager
Flies her ship and does it right
All the crews with their pips in a row
Won't find it hard to serve tonight.

They know that life exists somewhere
And if they get the coordinates down it's right out there
And every officer is going to try
To see if shuttle crafts really can operate and fly

And so I'm offering this simple phrase,
To Geeks from one to ninety-two,
Although its been said many times, many ways,
Merry Trekmas to you.

I'll be home on Voyager

I'll be home on Voyager
From the Delta Quadrant I'll try
please have friends and let make amends
And fireworks above the bridge up in the sky

Reginald will find us
through sub space wormhole things
I'll be home on Voyager
If only in my dreams

I'll be home on Voyager
Minus that Neelix guy
We left him in an asteroid field
with a lady friend that caught his eye

Starfleet Ships will find us
Breaking from trans warp
I'll be home on Voyager
If only in my dreams

Boldly Go

Oh the universe out there is frightful
But starfleet is so delightful
And since there's millions of aliens to know
boldly go, boldly go, boldly go.

It doesn't seem to stop expanding
and exploring is so demanding
With a ship that really won't go slow
boldly go, boldly go, boldly go

When we finally reach warp nine
How I'll hate going impulse again
But if you really calibrate
All the way home we'll hit warp 10!

Our sensors are quite effective
as we carry out the prime directive
As long as we love it so
boldly go, boldly go, boldly go.

When we finally see new life
How I'll hate going back to Earth
But if we keep on our mission so fair
All the way home I'll beware

We never show signs of stopping
Cause there's tons of stars for shopping
Our lives we really want to grow
boldly go, boldly go, boldly go.

Benji the Spaceman

Benjamin the spaceman
was a starfleet officer
assigned to deep space nine
at a difficult time
and his wife he just lost her

Orbitting a planet
emissary to Bajor
with baseball on his desk
being put through a test
on Cardassian Terok Nor

there must have been some magic in they way he ran his crew
cause after several seasons they added Worf he shaved his head and then Jake grew.

Down to the planet with a phaser in his hand

he would boldly go with Bashir and Odo
and thwart the dominions battle plan

Warpety Warp Warp, Warpety Warp Warp, look at Sisko go
Warpety Warp Warp, Warpety Warp Warp, into the big wormhole!

Kira and O'Brien were always quite the thrill
joined forces with quark a greedy Ferangi dork and Jadzia dax the alien trill.
It must have been corporal to speak to the prophets
for when they opened up the orb with visions they were met.

Back to the wormhole leaving Jake and Nog to stay
absorbed in bright white light and fading out of sight
saying I'll be back again someday

Thanks for downloading this fun project. Enjoy! Love,
Rick
